Category: DAILY LIVING

Activity: Open a Bank Account & Utilize It

Description: The objective of this assignment is to encourage you to open a bank account and use it. One of the safest places to store your money is in the bank. A bank account also helps you keep track of how much money you have, how much you are spending and makes it easier to make purchases and pay bills.

You may earn up to \$10.00 OF dollars for opening either a checking account or savings account and utilizing it. To receive credit, please bring in a copy of your bank statement. You may earn an extra \$2.00 OF dollars for demonstrating how to write a check.

Open a Bank Account & Utilize It

Information

Checking Account:

A Checking Account gives you a safe place to keep your money and still have easy access to it. It also helps you keep track of how much money you have and how much you're spending. Plus, your total deposits (the money you've deposited into your account) are insured up to \$100,000.00 by the Federal Insurance Deposit Corporation (FDIC).

Savings Account:

With a Saving Account, you can keep your money safe while it works for you by earning interest. Like the money you keep in your checking account, your total deposits are insured up to \$100,000.00 by the FDIC.

Keeping Track

It is very important, and up to YOU, to stay aware of how much money you have in your accounts. The account register in your checkbook is the best place to keep track of your account balances. It is important to keep enough money in your accounts to cover checks you write and other transactions you authorize. Remember that any deposits that have a hold on them ARE NOT INCLUDED on your available balance.
